50*50	✓	✓	✓	✓

SLITTING SERVICES

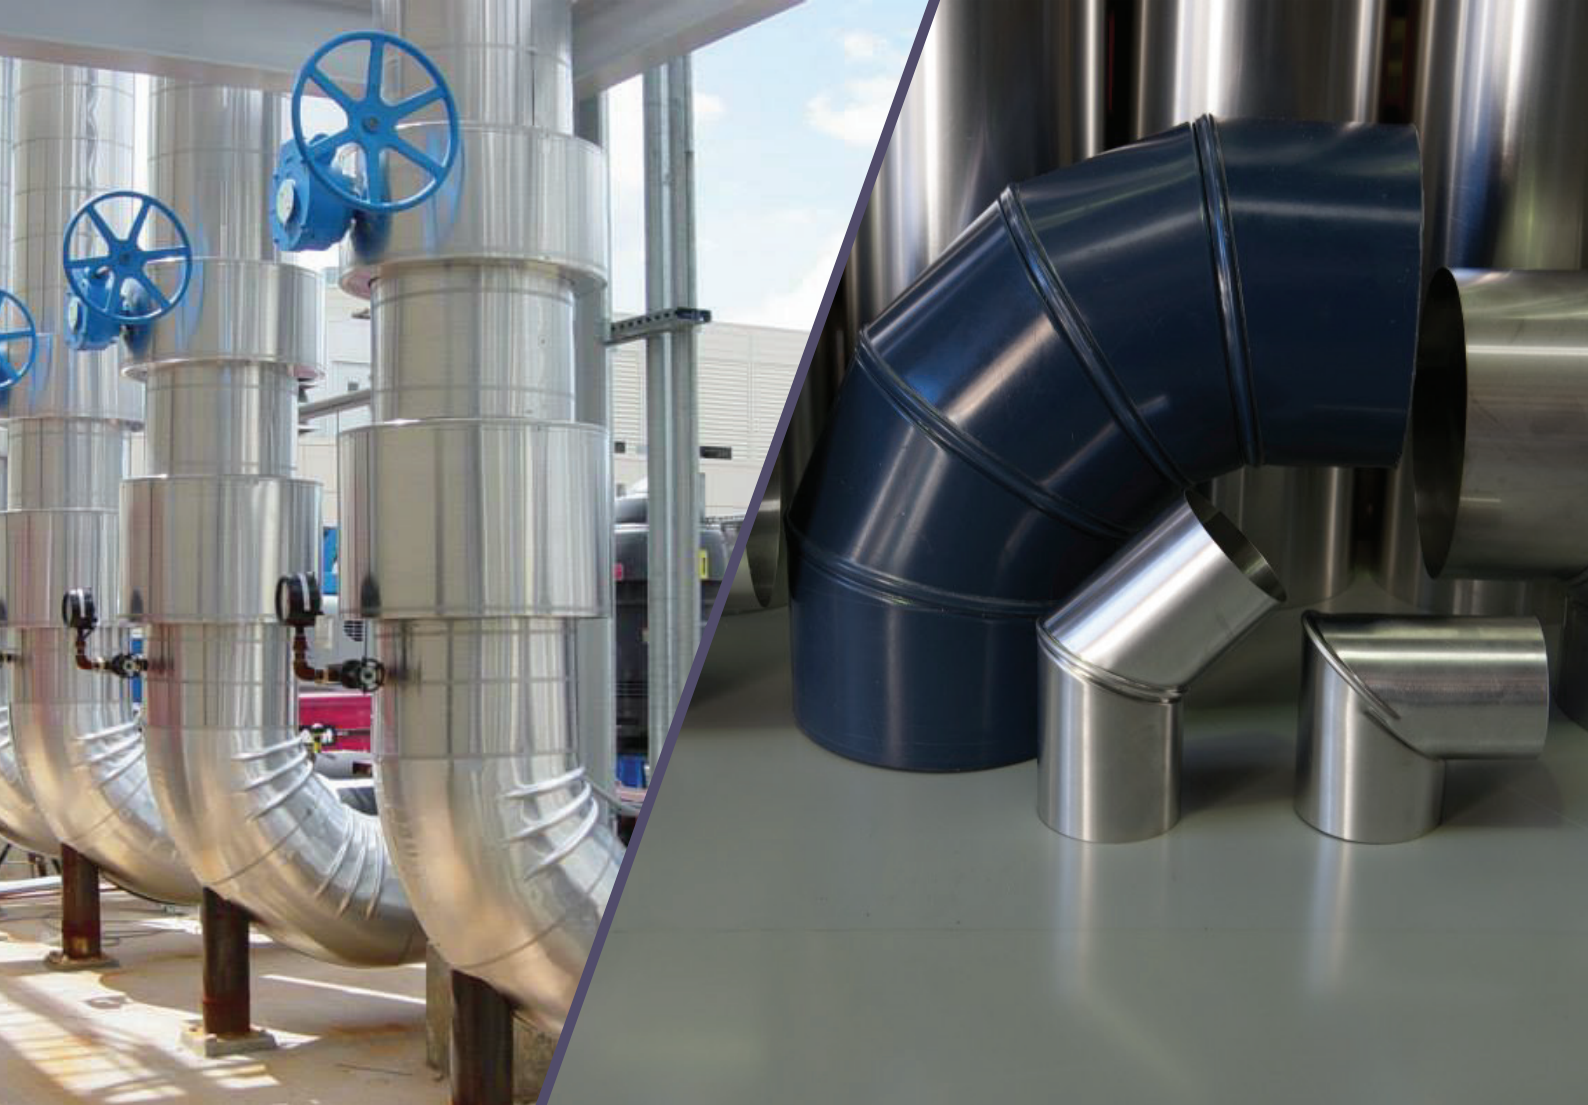

Slitting is a process which transforms a wide width coil to multiple narrow width coils. It is as per the clients requirements to which we can produce narrow width coils of a minimum 20mm all the way upto any width less than 1250mm. We can slit material upto 4mm thick.

Our Focus is to ensure we produce excellent slits as per the customers requirements.

CAPABILITIES

Thickness	Width
1 - 4mm	1250mm

JACKETING ROLL

We Manufacture Stainless Steel & Aluminium Jacketing Roll with moisture barrier film of polysurlyn or kraft paper.

A coating of moisture barrier applied on the Jacketing roll results in a high resistance to atmospheric corrosion making the use of Jacketing Rolls ideal, even in marine, chemical, industrial environments as well as in food/beverage processing industries. It protects the insulation and underlying pipe/vessel from physical damage, UV exposure, corrosive atmosphere and water.

This greatly reduces overall cost through an incredibly long product service life and has no maintenance costs.

SPECIFICATION	ALUMINIUM	STAINLESS STEEL
Alloy	1050, 1060, 3003	201, 304, 316L
Thickness	0.4 / 0.5 / 0.6 / 0.7 / 0.8 / 0.9 / 1.0 mm	0.4 / 0.5 / 0.6 / 0.7 / 0.8 mm
Width	914 mm (3') & 1220 mm (4')	
Length	50' (15 m) / 100' (30 m) / 200' (60 m) / 300' (90 m)
